### **DETAILED ACTION**

This office action is responsive to communication filed 5/30/2008. The status of the claims is as follows: claims 1, 11, 16-18 and 22-26 are under current examination and claims 12-15 and 19-21 are drawn to non-election inventions.

#### ***Claim Rejections - 35 USC § 103-MAINTAINED***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

**Claims 1, 11, 16-18 and 22-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Capon and Olivo et al (1998).**

#### ***Response to Arguments***

Applicant's arguments filed 5/30/2008 have been fully considered but they are not persuasive. Briefly, Applicant argues that there is no knowledge available to the

skilled artisan for combining two cell cultures available to the skilled artisan.

Additionally, the Office practiced impermissible hindsight to find that combining the two cell cultures would be obvious.

In response, Applicant failed to address the motivation provided by the Office. More specifically, it was emphasized that it was obvious to the ordinary artisan to combine cell cultures, each containing separate subgenomic viral replication systems for a more cost and time efficient means of screening for an antiviral drug, including determining a candidate's effect on multiple viral systems (less steps) or use of less materials (media or drugs). Regarding the lack of knowledge available to the skilled artisan for making such a combination of cell cultures, note that the previous office action provided teachings from the prior art disclosing the steps in preparing cell cultures. It is not clear from Applicant's argument what *special* knowledge would be required for the skilled artisan to make a cell combination. The expectation of success is reiterated in that the underlying techniques are both commonly used and well described by the prior art (see Olivo et al).

In response to applicant's argument that the examiner's conclusion of obviousness is based upon improper hindsight reasoning, it must be recognized that any judgment on obviousness is in a sense necessarily a reconstruction based upon hindsight reasoning. But so long as it takes into account only knowledge which was within the level of ordinary skill at the time the claimed invention was made, and does not include knowledge gleaned only from the applicant's disclosure, such a

reconstruction is proper. See *In re McLaughlin*, 443 F.2d 1392, 170 USPQ 209 (CCPA 1971).

### ***Conclusion***

**NO claim is allowed.**

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
